FOR OUR DEALER PARTNERS

Every 2-person meeting pod we offer, in one guide.

A 2-person meeting pod is the smallest private meeting room you can add to an office – ideal for one-to-ones, appraisals, interviews and confidential calls.

Pods are ordered by price level, from budget to premium. Each pod has its key features and specification, followed by a side-by-side comparison, colours and finishes, and what we need to quote.

4	4	30.3	5 yr
pods	leading ranges	dB, best speech reduction	warranty

Price levels

Budget

£–££

MusePod MD 2 Meet. Exceptional value and quick lead times, without compromising on acoustics.

Mid-range

£££

HushMeet S. Proven, practical pods from a brand end users recognise.

Premium

££££

HushFree XM, Bubliing M. Design-led pods with top acoustics and the widest choice of finishes.

Acoustics explained

Every pod is quoted with its speech level reduction in decibels, measured to ISO 23351-1. Around 30 dB puts a normal speaking voice below the level of the surrounding office at one metre from the pod. These 2-person meeting pods sit between 28.9 and 30.3 dB.

Price bands (£ to ££££) reflect the range rather than the individual pod. Contact us for dealer pricing on any project.

BUYING GUIDE

How to choose a 2-person meeting pod.

01
Decide what it is for
One-to-ones, interviews and confidential conversations all suit a 2-person pod. If meetings often grow to three or four people, look at our 4-person pods instead.

02
Choose the footprint
The HushMeet S and HushFree XM are just 900mm deep, so they fit along a wall or between desks. The MusePod MD 2 Meet (1635 × 1320mm) uses a squarer layout for a comfortable face-to-face meeting.

03
Decide how private it needs to be
All four reduce speech by 28.9–30.3dB. For HR or client conversations, the HushFree XM has the highest rating at 30.3dB.

04
Plan for video calls
All our meeting pods have power for laptops, and some can be specified with a screen mount for calls. Tell us how you will use it and we will recommend the right set-up.

05
Match the budget and lead time
The MusePod MD 2 Meet is the best-value option, the HushMeet S sits in the middle, and the HushFree XM and Bubliing M are premium. Lead times run from around six to twelve weeks.

06
Compare every size
Not sure if two seats is enough? Our meeting pods guide at silentcollective.co.uk/meeting-pods compares all 13 of our 2, 4 and 6–8 person meeting pods side by side.

What we need to quote
Send these and we will come back with a full quote within one working day.

1. Pod model(s) and quantity
2. Delivery and installation address
3. Finishes, or a configurator link
4. Floor level and lift or access route
5. Ceiling height and power position
6. Target installation date

WORKING WITH SILENT COLLECTIVE

Support for you and your clients.

You lead the project and liaise with your client. We are behind you at every stage, from first recommendation to aftercare.

01
Fast, expert answers
Questions on acoustics, finishes, lead times or a whole floor of pods, answered within one working day.

02
Samples & showroom
Physical finish samples, and demos at our Clerkenwell showroom where your clients can sit in the pods and hear the difference.

03
3D configurator
Design pods for your clients online, share links and PDF specifications, and send the final design to us for pricing.

04
Site surveys
We survey the space before we quote, so the recommendation fits the floorplate, access route and power position.

05
Delivery & installation
Our own fitting team delivers and installs nationwide across the UK, with photo and video proof of install.

06
Aftercare
Every pod carries a five-year warranty, backed by engineers who can be on site quickly.

silent COLLECTIVE
